Part of what gives the Chablé Spa its unique essence is duality; that eternal dance between two opposing forces which strengthen each other. Shamanism combined with luxury, ancient healing techniques with modern science: these combinations come together to provide extraordinary and unique wellness results.

At Chablé Spa, the only time that exists is here and now. The circle of life is based on time cycles, and therefore, the message of wellbeing here at Chablé is timeless. Around the cenote—the energy center of the Spa considered a power source by the Mayans—you will discover luxurious cabins, spaces specially adapted to restoration, which is achieved using proven techniques and ingredients.

Entering the Spa is part of a personal journey, a deep immersion into an experience which will allow you to return to your daily life feeling free, now transformed and as part of a continued evolution. Modern science, traditional Mayan wisdom, a subtle cosmic influence and the abundance of Mother Nature come together to create the healing experience which can be found in the Chablé Spa, and which brings our guests to a new level of inspired wellbeing.
A personal consultation allows us to suggest the treatments of one of our three Chablé Spa Journeys, each of which has a different energy and aesthetic outcome depending on the feelings and life stage of each of our guests.

We begin with a beautiful Mayan inauguration ceremony which recognizes the four points of the compass and acts as a portal into experiencing the here and now, followed by our extensive circuit of hydrotherapy which includes steam, sauna, jacuzzi and a cold tub. At any moment during the circuit, you can take a break in the relaxation lounge to recuperate and prepare yourself for the treatments or activities.

In our treatments, we interweave elements of traditional rituals and advanced therapeutic methods, which immediately take our guests into a world of ancestral mysticism and sensory indulgence. Welcome to a serene and intimate place, with ceremonial and contemplative spaces to calm the mind and open the heart. Flow, balance and inspiration: the themes of these Journeys which were born from our rich heritage and focus on transformation.

At the end of each treatment, we celebrate another ceremony which sows a new seed and completes the cycle of life.
I. FOUNTAIN OF YOUTH JOURNEY

- Timeless
- Natural
- Seamless
If our planet is a living being, cenotes are its chakras. Across the state of Yucatán, these pools are born from the depths of the earth where they are connected like a circulatory system, an organism which flows and has a magical beating pulse. Considered sacred by the Mayans, these pools were access points to the underworld, portals to the unconscious and the afterlife. Even today, they are magical, and they are considered a source of eternal youth. Chablé’s cenote is a sacred site and source of restoration for the body and soul. This is the central point of a healing journey, granting a curative base and a tranquil setting to develop our spa experiences. Great care has been taken to honor the cenote and its guardians, to softly mark and respect nature, while never offending the sacred waters.
Legend states that the Fountain of Youth is a natural spring which returns vitality to anyone who drinks or bathes in its waters. In Chablé, this beautiful legend becomes reality in a magical ritual of restoration and renewal.

The experience begins with a Welcome Ritual on the banks of the Cenote, using the power of the waters as a source of rebirth. This is followed by Flotation Therapy in our Flotarium tank, providing a profoundly tranquilizing effect. A scrub with herb-infused salts renews the skin and our exclusive lymphatic drainage massage helps to instigate the process of internal healing. To end the treatment, the therapist will offer an aromatic anointment, matching mind and inspiration.
BODY RITUALS

Flotation Therapy
30 min.
The sole flotation in the Flotarium offers a variety of immediate benefits. It is especially effective in releasing physical tension, even stress accumulated over months; it raises the level of endorphins and alleviates hormonal stress. The deep state of relaxation which the body can reach during Flotation Therapy is equivalent to six hours of the deepest sleep. The experience of calm, restoration and balance is unique, with lasting benefits.

Janzu
60 min.
In your own pool, with a level of privacy akin to being your own home and nature as an enveloping blanket, the therapist will work with you in the water, using gentle pressure and movements designed to release blocked energy, removing knots and permitting a state of total relaxation. Containing the soul in the water allows energy to flow harmoniously.

Sea and Sky Conditioning Treatment
60 / 90 min.
This is the most suited treatment to condition the skin: the biggest organ in our bodies and our point of contact with the outside world. The experience begins with a massage so relaxing, it will seem almost hypnotic. The therapist will softly place layers of a warm, mineral-rich gel made from seaweed and infused with aromatic extracts of Ume, a type of Japanese plum perfect for revitalizing and nourishing the skin. This is followed by a massage using our marine fennel wax, which fixes moisture deeply into the skin, leaving it silky-smooth.
Nirvana Stress-Relief Massage

90 min. This profoundly revitalizing massage will take you on a voyage through aromatherapy, including mixtures of local herbs and exotic essences which connect at each moment of the deep-tissue massage to relax your body, liberate your mind and transform stress into equilibrium.

Flow of the Tide Lymphatic Drainage Massage

60 / 90 min. An experience of essential relaxation that goes much further than a traditional lymphatic drainage massage. By balancing the tides of water in the body through rhythmic balance, calm movements and the soft tapping of loving, expert hands, the body is liberated, producing a feeling of purification, renewal and rejuvenation.

Body in Balance Stimulating Massage

60 / 90 min. We understand the needs of bodies with a dynamic lifestyle. Created for those who are active and care for their bodies, this treatment uses contrasting temperatures, varying rhythms and pressures to stimulate circulation, ease tension in deep muscle layers, tone and liberate potentially inflamed areas. Extracts of coffee and ginger are an invigorating addition to this highly effective treatment.

Rain Goddess: Flow

90 min. This body ritual is refreshing and healing. Rain Goddess is an experience which includes full-body exfoliation and a treatment to remedy and beautify the skin, with distinctive FLOW by Chablé body products to promote rejuvenation and renovation. This treatment is enriched with a wrap to deeply hydrate and revitalize the skin, followed by a rain shower.
BEAUTY RITUALS

90 min.  A reparative, regenerative and corrective treatment which combats the signs of aging. The mixture of active stem cell ingredients with Argan, Matrixyl®, Synthe© and TriRetinol work to reduce wrinkles and fine lines, as they improve the tone and firmness of the skin.

Pure Radiance Facial Anti-inflammatory
60 min.  This ritual offers spectacular results, being specially designed to reduce inflammation, the main cause of premature aging. The session begins with an exfoliation treatment to remove dead cells and impurities in the surface of the skin, followed by a layer of our Plant Stem Cell Booster Serum, created with plants and clinically proven to improve the appearance of fine lines and wrinkles, while providing glow, softness and firmness to the face.

Brightening Facial
60 min.  This treatment helps reverse the effects of sun damage and premature aging. The powerful antioxidants and corrective botanical extracts in our new Vitamin C15 Serum revitalize the skin, which will be firmer, more luminous and drastically reduce the appearance of wrinkles.
CEREMONIAL RITUAL

Sun and Moon Temazcal for Couples

90 min. A ceremony for couples. Ritual of the Goddess Ixchel as Weaver and Adult Woman

This is an experience of discovery, integrated with an ancestral therapy which encourages open communication between the couple. The therapist’s participation in ancient medicine techniques in addition to the sacred space which the couple will share make this an intimate and connecting experience.

Guided by two therapists during half of the therapy and with a private couple’s exercise in the second half, the sense of touch, the opening of channels of communication and the use of the spoken word are all key in this Temazcal, where the heady heat produced by volcanic stones in the private space is made more powerful by aloe vera and medicinal flower extracts.
II. TREE OF LIFE JOURNEY

- Purification
- Transformation
- Stability
The Tree of Life is central to Mayan cosmology; a sacred symbol which represents duality, being a link between the two remote worlds of the Earth and the Heavens, united by Human Beings. The Tree of Life honors nature and duality and treats the body as a bridge between the realms of the tangible and intangible worlds. The Ceiba, a mythical tree, exists in three different realms: the branches represent the heavens where the gods dwell and a higher conscious can be found, the roots represent the underworld the subconscious, while the tree trunk represents human life, the place of transformation and change. The trees, like other members of the plant world, share the possibility of transformation, stability and manifestation. In Chablé, the majestic Ceibas in our garden align themselves with this myth and remind us of their duality. Through our treatments, guests are invited to find this space of inner balance, where harmony, introspection and stability reign.
CHABLÉ SIGNATURE RITUAL

Life Balance

Our Signature Life Balance Ritual channels the Mayan understanding of the universe through therapies which integrate the entire being. The knowledge and practices are given to us by traditional cultures offering a vision to maintaining internal balance and harmony with the outside world. Modern day mental, emotional and physical stresses affect us every day in the field upon which we can either build or destroy our wellbeing.

This ritual, based on traditional Mayan knowledge, is focused on relaxing the nervous system and purifying the body to make room for the internal peace necessary to live a balanced life.

The experience begins with a Chablé Welcome Ceremony with elements of the Mayan Ritual which balances the energies of the four corners of the earth and orients our guests in time and space. Afterwards, an exfoliation with nutrient-rich Herbal Salts and a volcanic clay wrap aid deep cleansing and liberation. The Chablé Precious Stones massage helps release stagnant energy and promote stability connected to the earth, while anointing the crown of the head with aromatherapy oils gently awakens the mind. The ritual concludes with a special Chablé closing, intended to honor the continuity of the circle of life.
BODY RITUALS

Salt Chamber

45 min.  The salt chamber is a therapeutic space where halotherapy is practiced. As you breathe 100% natural microparticles, the body is privy to numerous physiological benefits: the airways improve, skin cells regenerate and inflammation in the legs and arms is diminished. Sufferers of arthritis and bone problems have also been helped by this treatment.

In accordance with our founding principle of duality, the Chablé Spa’s halotherapy fuses with Oriental healing techniques such as Thai massage, Reiki and sound-therapy with Tibetan Bowls, whose acoustic benefits are amplified inside the salt chamber. After receiving one of these treatments, the therapist will leave to allow you to rest and breathe deeply for around 15 minutes of introspection and to make the most of the minerals.

Chaya and Verbena Body Polish

90 min.  This intensively nourishing Body Glow combines Chaya (a plant native to Yucatán with regenerative and revitalizing properties) with bright citrus notes and anti-inflammatory cedron or verbena properties to leave the skin radiant and the mood elevated. The soft grains are mixed with aloe vera and shea butter, powerful moisturizers which combat dryness.

Volcanic Mineral Mud Body Scrub / Wrap

90 min.  This exfoliant made with highly detoxifying and rich mud integrates traditional remedies to cleanse and restore the skin. The ritual involves all five senses and is perfumed with the sweet yet earthy aromas of Indian tobacco and blackberry, combined with volcanic pumice stone and Arabica coffee to exfoliate the skin and cleanse impurities.
Deep Forest Detox Massage

Deep Tissue Massage

60 / 90 / 120 min. Created to remedy tension, this ritual is designed to relax painful muscles, tendons and stiff joints. The treatment is superior to any other massage, with the integration of therapies such as trigger point, myofascial release and Russian massage, aided by a selection of the best ingredients of nature's pharmacy for muscle recovery.

Chablé Precious Stones Massage

120 min. For centuries, precious stones have been used for healing. Here at Chablé, the timeless practice lives on using obsidian, quartz and basalt stones in a marvelous ritual designed to re-center you. In Mexico, obsidian is a very important part of our history and our healing traditions. It has the ability to absorb emotions, eliminate blocked energy and connect to the earth’s healing powers. Quartz amplifies energies and thoughts, aligning the chakras. This is an element which balances planes of physical and mental energies. Basalt is a strong, valuable stone, contributing to a reduction of negative character aspects and maintaining stability in periods of change.

Our planet's energy is contained in each and every one of the stones, together with the history of the earth from which they were produced. The therapists use the stones as if they were an extension of their own hands, expertly interweaving the different textures and temperatures throughout a massage with sensory and relaxing effects.

Mayan Herbal Compress Massage

90 / 120 min. These traditional herbal compresses are used to undo the body’s pains and tensions. They have the power to alleviate even chronic stiffness and tightness. The herbs are mixed with organic oils and applied to the body through a deep tissue massage. The traditional Mayan Na’Lum massage lovingly attends to the abdominal area.

Tree of Life Treatment (Four Hands)

120 min. At play in our bodies is a constant swing between polarities, between thinking and feeling, between waking and sleeping, and between acting and resisting. This swing of the pendulum keeps the dynamic rhythm of life flowing, allowing us to glide between the material and spirit world. This powerful treatment provides a means by which to balance these extremes, creating inner calm and rhythmic stability. Beginning with a relaxing foot bath, the massage incorporates a 4-handed massage where two therapists work in perfect synchrony to align and balance the body, mind and soul.

Rain Goddess: Balance

A body ritual that is distinctly detoxifying, this cleansing treatment includes a full body exfoliation and a purifying skin treatment with Chablé's Signature BALANCE aroma-blend to promote transformation on many levels. HEAVEN ON EARTH JOURNEY

Essence: Inspire

Mayan cosmology considers that the universe is formed of interconnecting aspects which represent and reflect human development and the evolution process. Mystery and wonder inspired by the heavens are alive in Chablé, with ceremonial sites which can be found throughout the Spa. The celestial dance is reflected in the rituals such as the Temazcal and the Welcome Ceremony, a space for introspection to interpret life cycles and to honor patterns and influences. This is a nurturing environment perfect for guests to explore their relation to the cosmos through conscious and full attention. Practicing Mayan traditions and curative connections, the Chablé Spa team guide guests on a journey of sacred learning and physical improvement. These are experiences which provide simple yet powerful lessons about the interconnectivity of life, the simplicity which resides in all things and the pleasure in healthy living.
The powerful energy and vibrations which are involved in the creation of health and wellbeing in the body are the same frequencies which also work in nature; helping flowers to bloom, seeds to bud and rain to fall. In this ritual, we celebrate the connection between divine wisdom and honor our position in the cosmos according to Mayan cosmology. Nature possesses an inherent wisdom, allowing it to restore lost balance, and human beings are part of this same wisdom.

This unique treatment incorporates a variety of specialized vibratory therapies with tones, percussion and chants to provoke energy changes, and a therapeutic Mayan Rebirth massage to create subtle yet significant changes in the body. The treatment ends with an aromatherapy anointment and the Chablé Closing Ritual, which honors the circle of life to affirm and liberate. As the philosopher Nietzsche once said: “Without music, life would be a mistake” and this Ritual will certainly have a lasting elevating effect on you.

CEREMONIAL RITUAL

Traditional Ceremonial Temazcal

150 min.
Group ceremony.
The Maiden Goddess
Ixchel Ritual

The Traditional Temazcal is an ancient purification ceremony. The word temazcal means “steam house” and this is a ritual based on one of the oldest forms of medicine where the physical, mental and spiritual levels come together. Intentions are channeled through contact with the four elements: earth, fire, water and air, inside the representation of Mother Earth herself. The medicine of the Temazcal benefits all the body’s systems and energies which promote a connection to oneself, generating a transformative effect, a mystical meeting and a feeling of rebirth.

The ceremony is directed by an X’Men, a person with the attributes and knowledge to follow the ancient ceremonial ways to open the four gates connecting to the four natural elements. The heat generated by the volcanic stones bathed in medicinal teas, the darkness which liberates the senses from external distractions, the group energy which empowers the ceremony and the chants and oral tributes make this ceremony a true rebirth for the participants.

CONSCIOUSNESS

Breathing Practice
There are as many different breathing exercises as there are fashion trends, so why not simply become conscious of our inhalation? Each second, each moment from when we are born until the day we die, we inhale and exhale.

Accompany us and receive a simple and refreshing reminder of the simple magic of each breath.

Gratitude Practice
With the pressures of modern life and all its demands, we often forget our real aims: to be alive, conscious and have food, shelter, family and friends. We are often separated from the beauty of living in the present moment and dreaming.

We dedicate a portion of our day to recognizing and honoring those things which we often take for granted. Accompany us in a friendly and non-dogmatic session in which we give thanks together.

Zen Meditation
60 min. When we achieve deep concentration in our posture and breathing, the mind enters a state of introspection and clarity in which ideas and thoughts come and go easily, achieving a lasting sense of peace.

Morning meditation walk
60 min. The teachings of Buddhism, yoga and the practice of conscious breathing come together in this delightful way to start the day in Chablé, where walking acquires a deeper meaning than getting from one place to another. The rhythm of your respiration will merge with your soft footsteps, and soon the whole organism will pulse to the steady rhythm in this paradise.

Qi Gong*
60 min. This ancient Chinese practice is based on a meditation through slow and fluid movements, deep, steady breathing to reach a connection with the energy of the universe and a relaxed, meditative mental state.

This practice can be static, meditative or dynamic, depending on the specific abilities or needs of each individual. Experience this health practice in a relaxed atmosphere.

Mind & Body Cycling
50 min. The repetitive movement of pedaling facilitates a connection between mind and body, developing self-perception to obtain better balance, control and coordination between the two sides of the body; maintaining a level of alertness in the nervous system and even influencing emotional and behavioral development.

A guided meditation during the session will bring the union of body and mind to the forefront.
**BALANCE**

**Hatha Yoga**
60 min. 
Visualize Yoga as one of the beautiful Ceibas which can be found in the grounds of Chablé, like a magnificent eight-branched tree. The physical postures (poses) will be represented by one of these branches. Hatha Yoga is the physical aspect of this over 3000-year-old discipline. You don’t need to be flexible, strong or have good balance, the aim of the session is to try the poses with our bodies: they are simple movements with important benefits. This is an unmissable class.

**Restorative yoga**
60 min. 
This healing session is focused on reaching the full attention which is found in all styles of yoga. As you practice gentle, slow movements, you will concentrate on your breathing and body, unifying the physical and mental. The skeleton and muscles are aligned thanks to the use of cushions and reinforcements to ensure a compassionate and gentle restoration of stiff joints and injuries. Once you finish, you will be filled with a sensation of relaxation and rejuvenation.

**Reiki healing**
60 min. 
This Japanese technique reduces stress and promotes relaxation. Physical contact between the therapist and the guest is minimal. In fact, the treatment is realized by bypassing the hands, following the belief that life energy flows in all of us, and through the therapist. If the energy is diminished, we suffer from illness or stress, but if energy levels are raised, there is more chance of feeling happy and healthy. It is a powerful sensation, raised even further by our auspicious location in the energy center of Chablé.

**Hamak Yoga**
60 min. 
It is in hammocks where Yucatán’s babies strengthen their muscles, and also where the Mayans go to find rest and relaxation. We combine the use of hammocks as mediums for movements and stretches from the disciplines of Pilates and Yoga to create our own unique Chablé technique. Through Hamak Yoga, the body is supported in the soft crochet of the hammock to stretch, flex, promote the flow of energy through the body, activate different joints and strengthen muscles. Total relaxation, contemplation and the integration of nature in this practice are fundamental to combine the spirit and the body together in these precious moments spent below the trees and alongside the powerful cenote of Chablé.

**Tai Chi**
60 min. 
This discipline demonstrates how to harmonize our movements with those of the world in which we live. It is a martial art, a physical art and a pathway to meditation and elevation. The essence of Tai Chi is to learn to react in the correct way to whatever life throws at us. Allow this system of movements and breathing exercises to act as a healing method chosen by the Chablé forest especially for you.

**Vinyasa Yoga**
60 min. 
This stimulating and challenging class is for guests with experience in the practice of Hatha Yoga. Vinyasa could be described as the marriage of movement and respiration, where it is repeated inside a creative, fluid and enjoyable sequence of postures. <tr>
<td>Hybrid Muscle Training</td>
<td>50 min.</td>
<td>To get your whole body into shape, why not try a new and dynamic combination of training such as integration, core and circuits?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Depending on your abilities and personal objectives, and after a gentle warm-up, you will be guided through specific exercises to first strengthen your core muscles (abdominals and lumbar). The challenge will continue through a circuit of different apparatus. During each task, you will try to synchronize with your training partner through specific patterns of time and rhythm. Enjoy yourself, push your limits and go beyond them!</td>
</tr>
<tr>
<td>Salsa</td>
<td>50 min.</td>
<td>Dancing is liberating and enjoyable. It releases endorphins which raise the feelings of wellbeing. The salsa steps help prevent osteoporosis and benefit the heart and lungs, something which makes dancers feel immediately younger!</td>
</tr>
<tr>
<td>Private Kinesis Training*</td>
<td>50 min.</td>
<td>Kinesis, based on the movement of the joints and muscles, uses cords and handles to induce different points of contact which stimulate the body on three levels: flexibility, strength and elasticity. A private training session with this technology is one of our guests’ favorites in Chablé. This is an option for those who enjoy strength training or for those looking for an alternative which is gentle, elegant and adaptable to work on different muscle groups.</td>
</tr>
<tr>
<td>Pilates</td>
<td>50 min.</td>
<td>This challenging yet gratifying system of exercise takes the name of its creator: Joseph Pilates. It focuses in the center of the body- the abdomen, the obliques and the lower back, then the inner and outer thigh and the entire body. The work of Pilates develops posture and knowledge of our muscles to correctly improve strength, flexibility, muscular resistance coordination, balance and good posture. Its effectiveness is based on achieving the absolutely correct form through precise technique. Each class is different, enjoying all variations of this beautiful technique which was developed for ballerinas.</td>
</tr>
<tr>
<td>Cycling Boot Camp</td>
<td>50 min.</td>
<td>Intense cardio, modern bikes and a highly-trained instructor are the perfect recipe for a great cycling class. The intensity and resistance can be raised progressively, through time or distance intervals. The challenge: to complete this tough yet entertaining class!</td>
</tr>
<tr>
<td>Combat Fitness</td>
<td>50 min.</td>
<td>Carlos, our fitness specialist, has designed a very powerful physical training system which combines techniques from different martial arts. Balance, concentration and speed will make this intense session one of your favorites.</td>
</tr>

Chablé Resort and Spa offers acres of forest, stunning hiking trails and facilities which can be discovered either in an activity led by one of our experts, or alone at your own pace.

**FITNESS**

**Outdoors**

**Cycling**

50 min. John F. Kennedy once stated “nothing compares to the simple pleasure of a bike ride”, but the experience goes beyond pleasant when riding through the delightful trails in Chablé’s forest. You can take a bike and helmet whenever you choose. Don’t forget to keep hydrated!

**Running club**

50 min. Running has the power to create happiness, especially if you share the experience, or are in an inspiring location, such as the grounds of Chablé. Our running club meets at the same time every day, and after a warm-up and technique check, our trainer will help you to decide on a new goal or one to beat your previous records. This might be just what you need to introduce running into your life.

**Aqua Fitness**

50 min. Exercise in the water has practically no impact on the joints, yet is very effective in strengthening, healing and avoiding injuries or simply moving our bodies smoothly and with coordination in the pool.

**Animal motion**

50 min. In many ancient civilizations, each animal was considered to have a spirit which identified it, and each human being had a spirit animal. Bring your mind and body to the limit, and explore your essence of strength, intensity, clarity, resistance or flexibility in this session—created to simulate the movements of majestic animals in a secure and intense practice.

**Tennis clinic**

60 min. Perfect your game while you enjoy Chablé. Our pro can help you improve your technique, posture and game, as well as proving themselves excellent game partners. Our tennis courts can be rented privately.

**Paddle Tennis Courts**

Discover (or perhaps, rediscover) this sport which is beloved by thousands. Rent a court, bats and balls for a thrilling, elegant and very entertaining game.
**Gym**

In front of the cenote, filled with light and overlooking the Mayan forest, the Chablé gym is equipped with the latest Technogym technology. Two Personal Kinesis stations, cardio equipment, treadmills, ellipticals, fixed and strength exercise bikes, a multi-station with incline and decline benches, adjustable cables, chest, leg and abdominal presses and vertical traction, as well as dumbbells and medicine balls.

*For personalized training sessions, please reserve with the Resort Concierge or with the Spa Concierge.*

*Open from 6am to 8pm.*

**Movements Salon**

**Yoga Mats**

If you need a mat in your cabin for personal use, please call the Concierge by dialing “0”.

**Cycling and Walking Trail**

A pleasant trail which stretches from the organic vegetable garden, past Los K’anche’s, the gardens bordered with Ceiba trees and the area of local forest, passing by the temazcal.

The 1.4-mile-long trail is ideal for cycling, running or simply a brisk walk.

*Recommended from 6am to 6pm.*

**Tennis Court**

With a hard surface and night-time illumination. Please reserve with the Concierge. We have rackets and balls available.
