## CHABLÉ RESORT & SPA

Yucatán, Mexico

**The lowdown** Mayan-inspired wellness in a tropical paradise.  
**Best for** Wellness buffs seeking the ultimate restorative escape.  
 At this luxury enclave of 40 deluxe casitas tucked in 750 acres of tropical jungle, ancient Mayan culture and mysticism are woven into every aspect of Chablé Resort & Spa. Each standalone villa has its own pool, open-air shower and outdoor living room with pure cotton hammocks. The interiors are crafted from warm wood and stone with the original 19th-century hacienda walls left untouched, adding a sense of place and history. The real star of the show is its spa with an epic offering of Mayan-inspired treatments including a three-hour Signature Ritual session, which draws on elements of traditional Mayan ceremony to offer a healing journey from purifying and de-stressing to heart-opening and rhythmic exploration. What makes it extra-special? The spa has its very own cenote – a well full of sacred natural caves. In addition to the spa's nine treatment rooms, there's a salt cabin and floatarium. When you're ready to kick back in the evening, pay a visit to the expansive cellar with the world's largest private tequila collection. So if you don't know your blanco from your añejo, you will by the end of your stay!  
**Book it** Prices from £835 per night for two people in a casita, including breakfast (chableresort.com).
