MEXICO'S CHABLÉ RESORT & SPA

A HARMONIOUS BLEND
OF HEDONISM AND WELLBEING

Located 25 minutes from the historic city of Mérida on Mexico's Yucatán Peninsula, Chablé Resort & Spa is a five-star property offering a harmonious blend of hedonism and wellbeing. Completed in late 2016, Chablé features 38 luxurious stand-alone pool casitas, an 8,000 sqft Presidential Suite, an expansive Royal Presidential Suite and a traditional "Hacienda", restored to reflect the culture of the local area.

This unique retreat is spread across 750 acres in the heart of the Mayan forest, providing the utmost in privacy and tranquility. The Yucatán region is embedded in history and tradition, guaranteeing guests an authentic experience in a stunning yet serene environment.

Chablé's innovative spa is the first to be built around a "cenote", natural cave formations commonly associated with the Yucatán Peninsula and considered sacred by the Mayans. The philosophy of the spa draws from this ancient culture to offer a wide range of Mayan-inspired spa treatments, harnessing the powers of the area's most ancient techniques and ingredients.

The resort also offers organic seasonal menus across its three restaurants (Ix'im, Ki'ol and the spa restaurant), with fresh produce sourced directly from the on-site Maya garden. With an ethos that encourages balance, Chablé also offers an expansive cellar showcasing the world's largest tequila collection, available at its Ix'im restaurant, beautifully nestled within the lush jungle grounds.
