CHABLÉ RESORT

Merida, Yucatan, Mexico

Nestled in the lush Mayan forest near the historic town of Merida, Mexico, lies Chablé Resort - boasting a contemporary, luxury spa constructed around a cenote. A sacred site in the Mayan culture, the cenote was believed to be an entrance to the portals of the afterlife and a way to communicate with the Mayan gods. Today, the cenote serves as a focal point of the spiritual journey offered at Chablé and their invigorating list of spa treatments.

Each well-curated journey that Chablé offers is inspired by traditional Mayan rituals. The spa's unique therapeutic practices were developed by Chablé's Spiritual Mother, Monica Simone, who has devoted her life to ancient knowledge and learning spiritual practices. Structured around three themes - flow, balance and inspire - each guest can truly personalize their experience based on each. Book a flotation therapy session in the cenote's healing waters, reap the natural benefits of Chablé's dry salt chamber or experience the Temazcal or "House of Vapor" Ritual led by a Mayan Shaman. Each signature service and element engages the mind and body, ensuring a moving experience for every guest.
